About Ecora
Ecora is a leading critical minerals focused royalty and streaming company.

Copper is at the core of our portfolio which also includes other commodities linked to the trend of electrification, energy transition, infrastructure renewal and urbanisation, digital infrastructure, robotics and energy security.

Our cash generative portfolio includes producing royalties and streams and has a strong organic growth profile that is expected to generate substantial additional cash flow in the medium term.

We take a disciplined approach to investments and acquisitions, focusing on high quality opportunities, in established mining jurisdictions and with experienced management teams. These investments have the potential to deliver enhanced returns through life of mine extension and commodity price outperformance.

Our management team has a long and proven track record of originating, completing due diligence, innovatively structuring and completing accretive royalty and stream transactions in the critical minerals space.

We allocate capital prudently, with a focus on growth, maintaining a strong balance sheet and returns to shareholders.

Ecora's shares are listed on the London and Toronto Stock Exchanges (ECOR) and trade on the OTCQX Best Market (OTCQX: ECRAF).
