Ceres Power Holdings plc
("Ceres", the "Company")

Notice of Capital Markets Event

Horsham, UK: Ceres Power Holdings plc (CWR.L), a leading developer of clean energy technology, is hosting a capital markets event "**The New Era of Power Generation: Delivery at Scale and Pace**" for analysts and institutional investors at 10.30 BST on Wednesday, 15th April in central London.

Phil Caldwell (CEO) and the Ceres team will discuss:

- The near-term demand for on-site power for commercial, industrial and data centre customers
- The evolving landscape for hydrogen
- How Ceres is best positioned to win in these markets
- Launch of our next generation solid oxide platform for power and electrolysis
- How this enables Ceres' next phase of commercial growth

This event will be invitation only. Following the in-person event, slides and videos will be made available for download on the Investors section of the Ceres website:
<https://www.ceres.tech/investors/>

Ends

About Ceres

Ceres is a leading developer of clean energy technology: fuel cells for power generation and electrolysers for green hydrogen. Its asset-light, licensing model has seen it establish partnerships with some of the world's largest companies, such as Doosan, Delta, Denso, Shell, Weichai, and Thermax. Ceres' solid oxide technology supports greater electrification of our energy systems, including AI data centres, commercial and industrial applications, and produces green hydrogen at high efficiencies as a route to decarbonise emissions-intensive industries such as ammonia, steelmaking, and electrofuels. Ceres is listed on the London Stock Exchange ("LSE") (LSE: CWR) and is classified by the LSE Green Economy Mark, which recognises listed companies that derive more than 50% of their activity from the green economy.
